DETAILED ACTION

Allowable Subject Matter

Claims 1-9 allowed.

The following is a statement of reasons for the indication of allowable subject matter: The prior art found does not teach the use of a display on the IR test module to display the result signal in combination with the IR test module, processor, and targeted test module as disclosed in claim 1, nor does the prior art teach the step of displaying the result on the test module display in combination with the steps of installing and testing the targeted test module as disclosed in claim 5.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US 6,292,283 teaches a similar apparatus that displays the result on the targeted test module as opposed to the IR test module.
